
Fukujin Kisen is Granted for
Innovation Endorsement Provider Certification by ClassNK
(Certification for “innovative initiatives” of organization by ClassNK)

Fukujin Kisen Co., Ltd (FUKUJIN KISEN) is granted for Class C Innovation Endorsement Provider Certification (*1) for organizations by ClassNK.

ClassNK provides a third-party certification service for efforts to transform business methods and organizations in order to establish sustainable and competitive businesses while companies are promoting ESG management and SDGs initiatives. FUKUJIN KISEN was recognized for its efforts toward "New Style Ship Management through the fusion of ESG management and digitalization."

FUKUJIN KISEN, aims to be a company that pursues a new style of ship management utilizing digitalization, called "Next-Generation Ship Management", and rewarding and comfortable work environment for employees and seafarers based on ESG principles in order to ensure the safe operation of our fleet ships. ESG Promotion Team and Marine Project Team were newly established for that purpose.

SDGs are endless goals. We will continue to pursue what we can do based on the ship management business, and devote ourselves to becoming a company that is chosen by our partners.
